

Allergen, *Epicoccum purpurascens* (m14) IgE

Test ID: 3732

CPT: 86003

Clinical Significance:

Epicoccum is a secondary decomposer of plants, soil, paper and textiles. It is very common on dying substrates, where abundant sporulation can be observed. Small black pustules of *E. purpurascens* are frequently found on dead parts of numerous plants. It has also been isolated from cereals, fruits, polluted fresh water, compost beds, insects, human skin and sputum.

Profile Components:

Labtech Diagnostics

Container:

Serum Separator Tube (SST®)

Transport Temperature:

Room Temperature

Specimen:

Serum

Specimen Stability:

Room temperature: 28 days
Refrigerated: 28 days
Frozen: 1 year

Reject Criteria:

Days Performed:

Mon-Sat

Collection Instructions:
